

CAMBRIDGE NATURAL HISTORY SOCIETY

Founded in 1857 as Cambridge Entomological Society

Cambridge Natural History Society is open to anybody interested in natural history: plants, animals, fossils, soils, climate, conservation, ecology and more...

We hold Thursday evening meetings from October to April when local experts give talks on a wide variety of topics. There is an opportunity for further discussion both in the lecture theatre and in the pub afterwards.

In spring and summer, we run field excursions to local places of interest - ideal for learning about wildlife and practising your identification skills.

Each year we select an area around Cambridge to survey. We visit it every month, recording the flora and fauna we find.

The Cambridge Concert Orchestra has been making music, and making it fun, since 1967. We have a reputation for being one of the friendliest orchestras in Cambridge and enjoy playing a wide repertoire of music, exemplified by our programme today.

We are very privileged to have an extensive library of sheet music, and are proud to have commissioned new pieces by contemporary composers. This means that every concert is different and there is always something for everyone. While the orchestra's emphasis is on enjoyment, our concerts also serve to raise money for local, national and international charities. We have helped raise approximately £20,000 in the last seven years.

The orchestra has been fortunate in having Suzanne Dexter-Mills as Musical Director since 2002. Suzanne lives and teaches in Suffolk, where she directs ensembles in schools and for the Suffolk County Music Service.

We never forget that music is to be enjoyed, and sincerely hope you enjoy tonight's concert.
